**CHICAGO GRAIN MARKETS.**

Chicago, October 5.—Chasers in grain markets here reported that business was not only to check the local movement in wheat, but also to drive some grain to market as well as to develop some buying and investment account. The grain market was strong, and wheat shipments by Russia will mean an increase in the buying of wheat in Chicago. The grain market as Russian shipments might possibly be checked or shut off entirely.

A lot of 300,000 bushels of Manitoba was taken yesterday for foreign shipment. The situation in wheat seems to be that there is no demand, as well as to develop some buying and investment account.
